

Valeria Trofim

Malmö, Sweden | +46722982881 | valeria.trofim17@gmail.com

Objective

As a beginner front-end developer, I aim to kickstart my career and build web applications that are seamless, visually compelling, and can resonate with users. Armed with a strong foundation in HTML, CSS, and JavaScript, I am enthusiastic about exploring innovative design trends to bring digital ideas to life and to contribute my creativity, problem-solving skills, and commitment to continuous learning.

Education

Lund University

- BSc in Economic History, Economy and Society

Lund, Sweden

Enrolled: September 2020

Personal Projects

Github link - <https://github.com/ValeriaTrofim>

Game Catalog - <https://game-catalog-sooty.vercel.app>

- React application that users can explore to discover new games based on genres, platforms, release dates, or other criteria.

List app - on github

- Exercise built in React to allow users to add, remove, and interact with list items.

Issue Tracker - <https://issue-tracker-sand-seven.vercel.app>

- Next JS app that allows users to create new "issues" to report problems, bugs, or tasks that need attention.

Quiz App - <https://quiz-app-gray-five.vercel.app>

- Next JS quiz app that challenges users on frontend theory.
