

Valeria Trofim

Malmö, Sweden | +46722982881 | valeria.trofim17@gmail.com

Objective

I aim to kickstart my career as a frontend developer and build web applications that are seamless, visually compelling, and can resonate with users. Proficient in React, Next.js, and TypeScript and armed with a strong foundation in HTML, CSS, and JavaScript, I am enthusiastic about exploring innovative design trends to bring digital ideas to life.

Education

Lund University

Sweden, Lund

- BSc in Economic History, Economy and Society

Courses & Workshops

Redi School

Sweden, Malmö

- AI Fundamentals - Microsoft AI-900 certification.

Workshop at Microsoft

Denmark, Copenhagen

- Applied architectural thinking principles to evaluate and select a foundry tool for a specific business case.

Volunteering

Global Policy Research Group

Sweden, Lund

Frontend developer volunteer

- Developed and maintained responsive layouts for the organization's website
- Managed and updated website content to ensure accuracy and accessibility
- Collaborated on improving user experience and site functionality across devices

RSMH Skåne

Sweden, Malmö

AI research volunteer

- Researched and presented how AI tools could support legal, advocacy, and administrative workflows within the organization
- Proposed privacy-conscious and GDPR-aware AI workflows, including prompt engineering methods to improve documentation and follow-up processes

Personal Projects

Github link - <https://github.com/ValeriaTrofim>

My Portfolio - <https://my-portfolio-coral-nu-97.vercel.app>

Game Catalog - <https://game-catalog-sooty.vercel.app>

- React application that users can explore to discover new games based on genres, platforms, release dates, or other criteria.

List app - on github

- Exercise built in React to allow users to add, remove, and interact with list items.

Issue Tracker - <https://issue-tracker-sand-seven.vercel.app>

- Next JS app that allows users to create new "issues" to report problems, bugs, or tasks that need attention.

Quiz App - <https://quiz-app-gray-five.vercel.app>

- Next JS quiz app that challenges users on frontend theory.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS.

Backend & Data: Prisma, MySQL, MongoDB, RESTful APIs.

Testing: Unit Testing (React Testing Library), Git/GitHub, Vercel, Sentry.

AI: Azure AI Services, Prompt Engineering, NotebookLM.

Languages: Fluent in English, Romanian, Russian
